

Integrated Mother and Child Health Care Project

With this regular project, MACCA tries to ensure integrated health care services for helpless and deprived people, especially mothers and children of the society. The poor of the locality, comprising women, children, adolescents and aged people, are being treated by MBBS and paramedics with free medicine support. There is a provision of providing necessary health and nutritional support with counselling services to pregnant and lactating mothers.

Publishing Popular Monthly Magazine

For promoting universal values of Islam, Masjid Council has been publishing a thoughtful Islamic magazine named "Monthly Jagrna" since 2005. The magazine is contented with articles of Islamic, scholars, expatriate column, poems and articles on health, youth and juvenile, and other contemporary issues. A very popular section of the magazine is "Question and Answer". In this section, various life-oriented queries of its readers from both home and abroad are addressed.

Council Complex

To extend its multidimensional, service-oriented activities, Masjid Council Complex has been established in Jatrabari, Dhaka. Boys' and disabled units under Children Welfare Program (CWP), Nurunnesa Bibi Dakhil Madrasa and Mir Nawab Ali Jame Mosque are operating its activities in the complex premises. For ensuring quality education, especially, Nurunnesa Bibi Dakhil Madrasa starts its journey with a new look from PLAY group to Class VIII.

Humanitarian Support during Natural Disasters

Masjid Council always tries to address people's suffering resulting from direct and indirect impact of various natural and man-made disasters. It addresses floods, fires, cyclones, hurricanes, tornadoes, earthquakes, severe thunderstorms, earthquakes, wildfires and even heavy winter and droughts through its relief and rehabilitation activities.

OUR APPEAL

All the activities of MACCA are being conducted with your full support. To continue these ongoing activities of the organization, we are seeking your regular advice, cooperation and overall support along with your extended zakat, charity and donations.

MASJID COUNCIL
for Community Advancement (MACCA)

MACCA

Background

Masjid Council for Community Advancement (MACCA) started its journey in 1999 as a development advocacy and humanitarian organization. Since then it is working for sustainable but integrated development, human security, peace and communal harmony across the country. With a vast network of faith leaders throughout the country and huge working experience with national and international development agencies like World Bank, USAID, The Asia Foundation, UNAIDS, UNICEF, BRAC, UNFPA and others, MACCA is committed to overcoming people's vulnerability and sufferings irrespective of their religion, race, ethnicity or gender and striving for creating a society free from violent extremism (VE) and injustice.

- **Vision**
  To achieve a value-based society of hope, peace and communal harmony.
- **Mission**
  To establish a humanitarian society free from poverty, inequality, exploitation and violent extremism (VE).
- **Objectives**
  - To rear and rehabilitate orphans, unclaimed and physically challenged children, widows and the elderly.
  - To play a role in scaling up the moral standard of the people.
  - To promote livelihood capacities of marginalized groups and ensure primary health care services for them.
  - To ensure emergency humanitarian support and rehabilitation for vulnerable people.
  - To establish alternative but citizen-friendly approaches to prevent the re-emergence of extremist groups in Bangladesh.

Life Related Education (LRE)

MACCA launched the LRE project in June 2012 with only 30 centers aimed at scaling up the citizen's value and good morals. Now the project is running in 8 districts of the country among pre-school level, adolescents and aged male and female. Each center consists of 36 students with 2 years' course duration. The students who completed the course successfully are able to read the Qur'an fluently and learned various types of life-related lessons.

Children Welfare Program (CWP)

Masjid Council, since its inception, has been working for the wellbeing of the orphans, destitute, abandoned and autistic and physically challenged children under this program. Through this, it is tried to bring back these sections of the society into the mainstream of the development. The program covers a full package of balanced diet, quality education, health, shelter and other necessary amenities. For the balanced development of these children, national and international guidelines including the Convention on the Rights of the Child are followed. Currently, there are 26 boys, 25 girls and 17 physically challenged children in 3 (three) orphanage units.

Daragram Piped Water Supply Project (DPWSP)

This project is being implemented at Daragram—an arsenic-prone area under Saturia Upazila of Manikganj District since 2007. It is a joint venture project with World Bank. The arsenic-free (bace pure drinking water is being supplied among 423 families of the locality under the project through a high-capacity water pump, overhead tank and necessary water treatment plant. To ensure water quality, treated water is regularly tested in the laboratory of BUET.

Ideal Village Projects

This is a Zakat-based sustainable poverty reduction model through the development of livelihood capacity and morals of the poor and ultra-poor of the society.

The prime objective of this project is to increase the capacity of beneficiaries, enhance income level and ensure primary health care services, nutrition, hygiene and sanitation. This project is being implemented in the district of Dhaka, Manikganj and Kurigram. Under this project, a non-returnable fund of about BDT 1 crore has already been provided to about 542 beneficiaries in 2021 and 2022 for income enhancement activities.
